

## Waterless Bio

### High performance offset inks for waterless printing

Waterless Bio Sheetfed Ink is a 100% vegetable oil-based ink, specially developed for waterless printing, compatible with all waterless plates and sheetfed printing presses. Waterless Bio ink is designed to be eco-friendly to meet the standards of low voc and is cobalt free.

#### Further advantages of this ink series are:

- Low dot gain
- Excellent ink transfer and dot reproducibility
- Low VOC
- Eco-friendly suitable for recycling
- Suitable for coated and uncoated papers including most metalized substrates  
Testing is recommended on metalized substrates
- Intense bright colours
- Can be overprinted or laminated, but a test print is always recommended
- ISO 12647-2 Compliance
